A small introduction with one open water dive in the sea. 21D. The guide contains three sections - the first contains standards specific to this course, the second contains knowledge development presentations, the third considers optional confined water and/or surface training and details the open water dives. All required standards, learning objectives, activities, and performance requirements specific to the PADI Deep Diver course appear in boldface print. The course for seasoned divers consisting of a deep, wreck, night, navigation and a digital photo dive. There's no reason to make a deep dive if you can make essentially the same dive at a shallower depth. Unlike shallower dives, deep dives tend to be short since time and air supply is limited. In this case, a qualifying certification is defined as proof of certification beyond entry level (at least two certifications total) with proof of 20 or more logged dives documenting experience in deep diving and underwater navigation. Verify student diver prerequisite skills and provide remediation as necessary. 2. At least 15 years. Supervision and Ratios Open Water Dives A Teaching status You make a deep dive to see, to do or to experience something that you can't on a shallower dive. 10 years old. Your local CMAS Federation will acknowledge it. For further detail, reference Membership Standards in the General Standards and Procedures section of your PADI Instructor Manual. Student Diver Prerequisites By the start of the course, a diver must be 1. Deep Diving Techniques: On the Bottom 33H. 16C. Deep Diver Open Water Dives 531. Deep diving opens the door to many new exciting dive sites like deeper wrecks, reefs and walls. General Open Water Considerations 52B. PADI Scuba Divers are qualified to dive under the direct supervision of an instructor with a maximum depth of 12 meters/40 feet. If you have the first part of the Knowledge Review on file, you may at your discretion, have student divers complete only Knowledge Review - Part I. Confined water and/or surface practice sessions are not required for the PADI Deep Diver course; however, you may choose to have practical sessions that allow student divers to practice skills such as navigating with a compass, buoyancy control, safety stops, Delayed Surface Marker Buoy (DSMB) deployment, breath-holding, Deep Diver Open Water Dive One Deep Diver Open Water Dive Two Deep Diver Open Water Dive Three Deep Diver Open Water Dive Four Open Water Dive Five Deep Diving Techniques: Safety Stops and Emergency Decompression 351. Dive Four 56 Appendix Appendix Table of Contents 57 Deep Diver Introduction This section includes suggestions on how to use this guide, an overview of course philosophy and goals, a flow chart to show you how course components and materials work together for success, and ways you can organize and integrate student diver learning. How to Use this Guide This guide speaks to you, the PADI Deep Diver Specialty Instructor. Minimum age is ten, kids between 10 and 14 receive a Junior Open Water certification. Equipment for Deep Diving 23E. Items not in boldface print are recommendations for your information and consideration. As a rule, divers tend to be adventurous people, and deep diving - whether to visit a wreck or take photos - can certainly be called adventurous. Organize your course to incorporate environment friendly techniques throughout each dive, to accommodate student diver learning style, logistical needs, and your sequencing preferences. You may choose from one of the approaches from Program Options, or develop your own. Step Independent Study 1 Independent study with manual and video (optional) 2 Review Knowledge Review - Part I and Part II (optional) 3 Confined Water Dive and/or Surface Practice Session (optional) 4 Open Water Dive One 5 Open Water Dive Two 6 Open Water Dive Three 7 Open Water Dive Four Adventure Dive Integration Independent study with manual and video (optional) Give credit for Deep Adventure Dive and collect Knowledge Review - Part I (optional) Confined Water Dive and/or Surface Practice Session (optional) Review Knowledge Review - Part II (optional) Open Water Dive Two Open Water Dive Three Open Water Dive Four Instructor-Led Knowledge Development Classroom Presentation (optional) Review Knowledge Review - Part I and Part II (optional) Confined Water Dive and/or Surface Practice Session (optional) Open Water Dive One Open Water Dive Two Open Water Dive Three Open Water Dive Four Deep Diver Section One: Course Standards This section includes the course standards, recommendations, and suggestions for conducting the PADI Deep Diver course. Topic Course Standards Site, Depths, and Hours Depth: 18-30 metres/60-100 feet Instructor Prerequisites To qualify to teach the PADI Deep Diver course, an individual must be a Teaching status PADI Open Water Scuba Instructor or higher. Student divers will apply the knowledge they gain by reading the PADI Deep Diver Manual and watching the companion video on at least four open water dives practicing and demonstrating the practical aspects of deep diving. Course Flow Options Course Flow Options provides a visual representation of how knowledge development and confined water and/or surface practice sessions support open water dives. Gas Narcosis 41K Decompression Sickness 43 Deep Diver Section Three: Open Water Dives Conduct 49 Open Water Dives Performance Requirements 50 Open Water Guidelines for Deep Dives 52A. Certified as a PADI Adventure Diver or Advanced Open Water Diver or have a qualifying certification from another training organization. Aug 28, 2015 Report Download Category: Documents Author: dfgdfgdsf-dfsgdfsg Description: deep diver padi Transcript: Deep Diver Deep Diver PADI Deep Diver Specialty Course Instructor Guide PADI 2007 All rights reserved. Portions of the Appendix of this guide may be reproduced by PADI Members for use in PADI-sanctioned training, but not for resale or personal gain. Deep Diving Techniques: Descents and Ascents 30G. This course can be later completed with one dive to the level of Open Water Diver within one year. Deep Diving Techniques: Drift Dives and Wall Dives 37J. Dive Three 554. Prerequisites: Ability to swim and float unassisted in the ocean, reasonable physical health, PADI Medical Statement and min. We are specialists in scuba diving courses and offer a wide variety of personalized courses from the FFESSM (French State and Federal CMAS) and PADI which can bring you fast to any level you are interested in, either from novice or seasoned diver. No other reproduction is allowed without the express written permission of the publisher. Published and distributed by PADI Americas 30151 Tomas Street Rancho Santa Margarita, CA 92688-2125 Printed in the U.S.A. This course philosophy, therefore, expands student diver knowledge about deep dive planning and organization, the basics of deep diving, hazards to avoid, deep diving support equipment, and how to interact responsibly with the aquatic life they'll see while deep diving. Div 88 Confine comparison Practice navigation swims with compass Practice buoyancy control Practice safety stops Practice breathing from an emergency air source Review Knowledge Review - Part I (optional) Review Knowledge Review - Part II (optional) Classroom Presentation (optional) Deep Diving from an emergency air source, reading (comparing with other divers) information from their depth gauges or dive computers. There are four dives to complete. Minimum age is 14. The FFESSM is affiliated with the CMAS which means that whatever country you come from with a CMAS Federation certificate you can always upgrade to a higher level. When possible, it's preferable to have student divers complete and review Knowledge Reviews from the PADI Deep Diver Manual before participating in the open water dives. General course standards applicable to all PADI courses are located in the General Standards and Procedures section of your PADI Instructor Manual. Course Philosophy and Goals It's a rare diver who hasn't felt the urge to dive deep. Thus, the goal of this course is to bring to light the necessary equipment needed to support deep diving activities, to discourage thrill seeker attitudes and encourage the proper deep diver behavior of following appropriate limits, and to teach student divers a systematic, methodical approach to enjoying deep diving. Consisting of five open water dives and two theory sessions. Some dives might be replaced by buoyancy, search and recovery. The boldface assists you in easily identifying those requirements that you must adhere to when you conduct the course. We offer the following Courses from the FFESSM / CMAS. Student divers will develop the techniques involved in deep diving within recreational limits (between the depths of 16 metres/50 feet and 40 metres/130 feet) while avoiding disturbing delicate marine life. The best way to learn Deep Diving procedures and to apply them is by doing it. Therefore, you don't have a great deal of time to do much so you'll need to make smart decisions about a dive objective and dive accomplishments. PADI Open Water Divers are qualified to dive by their own responsibilities to a depth of 18 meters/60 feet. Keep Deep Diver that thought, the philosophy of this course is to focus on making smart decisions that are stress-free, deep diving experience with an emphasis on safety. It's only natural that like most divers, you have some interest in deep diving. Deep diving is a means to an end. Knowledge Review - Part I is the same Knowledge Review that appears in the Deep Diver section of Adventures in Diving. Why Deep Dive? What is a Deep Dive? PADI Instructors 15 years Instructor: PADI Deep Diver Specialty Course Instructor Guide Emergency backup air supply PADI Deep Diver Specialty Instructor PADI Adventure Diver or Advanced Open Water Diver Open Water 8: 1 Instructor; 4: 1 Certified Assistant. Hours Recommended: 24 Minimum Open Water Dives: 4 dives over 2 days Ratios Prerequisites Minimum Instructor Rating Minimum Age Materials and Equipment Deep Diver may apply for the Deep Diver Specialty Instructor rating after completing a Specialty Instructor Training course with a PADI Course Director, or by providing proof of experience and applying directly to PADI. You may add more dives as necessary to meet student divers' needs. Dive One 532. The entrance course for people with little time to spare, three open water dives and two theory sessions. Dive Two 543. Deep Diving Techniques: Buddy Contact and Neutral Buoyancy 29F. You may rearrange skill sequences within each dive; however, the dive sequence must stay intact.
